

Dear Sir,
The Traffic and Weather portion of XM Satellite radio is an important part of my commute every day. I pay a monthly fee for this service, and believe that it is worthwhile.

I respectfully urge you to reject the NAB'S petition 04-160 and to support XM's ability to provide the kind of programming that I demand and that I deserve.

I view this idea in the same manner as a 24 hour news station that can be found on Cable or Satellite TV. The local programming does not give me the up to date information I need in news or traffic, which is why I use a satellite dish in my home for better television coverage, and why I use a satellite radio in my truck for more up to date traffic and weather coverage.

Thank you for your time,

Jon Reed
Phoenix, AZ.
